

Saddle · geodesic graph · k=239 · first base-disk sample
Edge-calibrated physical coordinates / r²; equal spatial units and common limits

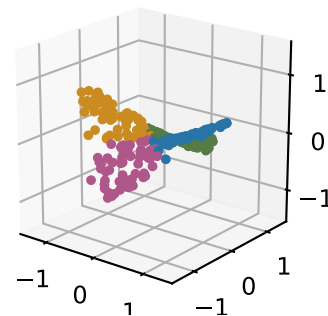

Original surface

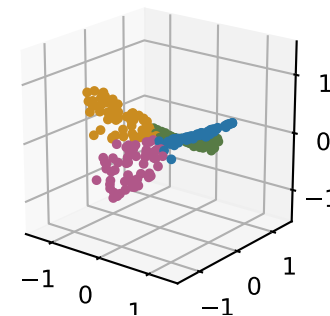

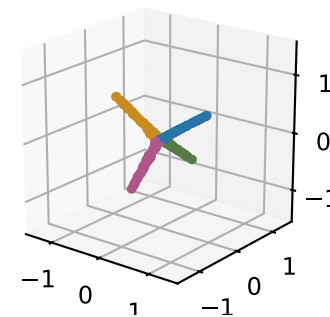

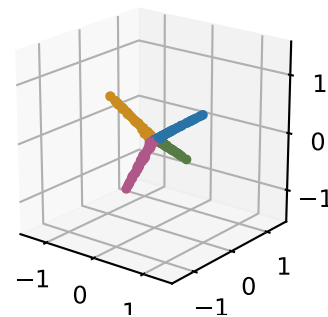

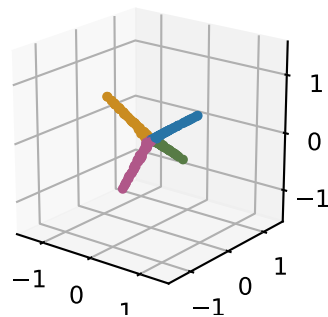

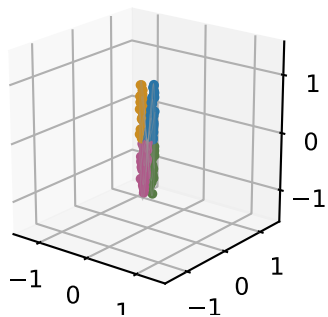

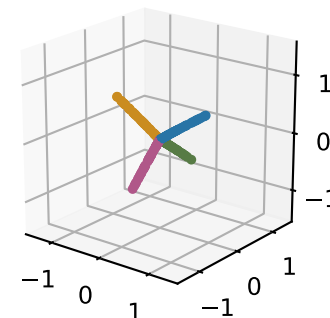

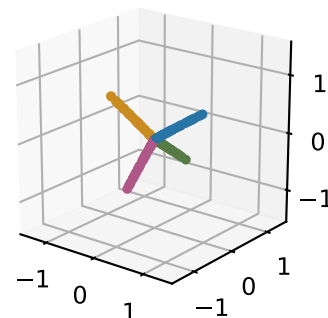

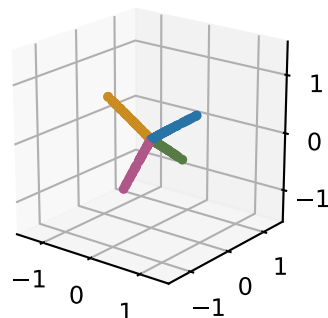

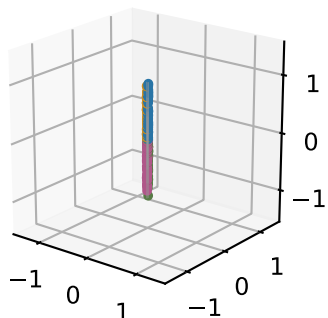

Stress MDS

Edge-KK: profiled scale

Edge-KK: fixed scale

$$\mathbf{r} = \mathbf{I}$$

$$\infty = 1$$

$$r = 64$$

Original wireframe covers the full parameter disk. Thin equal-unit views do not mean the surface domain was truncated.
